SS White Great White Gold Series Carbide TC Crown Removal Bur GW2 15062 FG

Code 55030 Pkt/10 $84.65 Min Order – 1 Pkt/10

Ideal for:

PFM crown and non precious metal removal,
titanium abutment adjustment without the sparks
removing old restorations

SS White TC Endo Access Bur 18207-5 FG

Code 55040 Pkt/5 $33.50 Min Order 2 x Pkt/5

SS White Great White Burs are designed to cut metal substructures for access during endodontic treatment

Sterile Oral Surgery Burs -HP

Prima Sterisafe Toller
Sterile Oral Surgery Burs
with blood ring -HP

- Sterisafe® Toller Burs feature a blood ring to inhibit fluids entering the handpiece from the operating site, with extended HP shanks to give deep penetration and maximum visibility.
- The Tapered Fissure (702) bur also features a reverse twist to the blade flutes, to assist the flow of irrigation fluids to the bur head

***long use by date/individually wrapped**

Cements, Liners & Medicaments

Alveolex – Dry Socket Paste

Code 15000 2 x 3gm Syringes $79.20

Dry socket paste with propolis and without irritating eugenol or fibrous particles.
Fill the socket with the paste, then suture to avoid contamination by food or other elements present in the mouth.
Is 100% absorbable by the body.
Can be used in all extractions to prevent Alveolitis and to stimulate healing in diabetic patients for example (+/- 50% faster healing)

Calcium Hydroxide Pulpdent Paste

Code 8791880 Pulpdent Paste 3ml $60.05

Radiopaque • Non-Setting
The Original, Non-Setting, Pre-mixed Calcium Hydroxide Paste for Root Canal Therapy and Vital Pulp Therapy
Internationally acclaimed as the world's finest treatment for:

- **Vital Pulp Therapy**
- **Pulpal Healing**
- **Dentin Bridge Formation**
- **Root Canal Therapy**

Pulpdent Paste is the original premixed calcium hydroxide methylcellulose pulpal dressing. It is indicated for direct pulp capping, pulpotomy and pulpal curettage procedures, and it is used routinely as an intracanal dressing between office visits to cleanse root canals and prevent flare-ups.
Pulpdent Paste has a pH > 12
Pulpdent Paste promotes favorable periapical healing and is the treatment of choice in complicated cases involving root resorption, traumatic injuries and other instances where calcium hydroxide therapy is indicated.
When used for vital pulp therapy, Pulpdent Paste stimulates consistent dentin bridge formation. The new dentin bridge is visible clinically after approximately 2-3 months.

Cavitemp Temporary Filling Material

Code 142320 $29.55 Jar28g
Ready to use temporary filling material in a synthetic resin
Adequate set yet easy to remove
Good adhesion to dentin and excellent marginal seal
Sets on contact with saliva

Irrigating Syringe Curved Tip

Code 49001 Min Order -1 Box 50 $ 60.90 ea

Syringe, Luer Lock - Terumo

Impression Material - Crown & Bridge

Elite HD+ Hydrophillic Silicone Material

Dental Advisor ++++ 1/2 Rating

- The only impression material that combines the modern effects of nano-technology and hydrophilia in order to guarantee the highest levels of performance in all clinical conditions.
- Immediate hydrophilic behaviour after just 2 seconds
- Nanoparticles in the fillers improve flowability in the gingivalsulcus
- The synergistic action between immediate hydrophilia and nano- technology ensures a consistent reproduction of almost any kind of detail

Stones

Yellowstone – Ainsworth

Super smooth pouring, excellent hardness and very low setting expansion make this the ideal dental stone for most laboratory processing task Ainsworth Yellowstone is a modern classic, trusted by thousands of professionals for its unique physical properties. It sets to a smooth, shiny surface and offers minimal splintering when grinding. No wonder it is Australia's favourite dental stone

Code AIYS59 5 Kg Pail $56.25 each

Code AIYS20P 20Kg Pail $145.85 each

***For items 20kg & over please ask for Freight quote**

Die Stone – Ainsworth

Diamond Rock 5Kg Code AIDR5P $115.65

Scannable Ultra-Hard Die Stone.

It offers a leading hardness and wear resistance thanks to extremely high transverse and compressive strengths. It mixes easily with a low water content, pours cleanly and offers a long working time and a rapid setting time. It also has an ultra-low setting expansion of just 0.07%.

Nothing else comes close for accuracy and strength. Ainsworth DiamondRock is ideal for all crown and bridge work, and also suitable for other work when maximum accuracy is required.

Evolution Polychloroprene gloves may just be the most comfortable gloves you can wear!

Using ground breaking technology to produce a low modulus glove, ensuring softer, more elastic fit that can improve performance and reduce hand fatigue.

- **Comfort, protection & strength**
- **Latex like feel without risk of latex allergies**
- **Enhanced softness, extended wear comfort and a better fit**
- **Proprietary polymer coating for 'glide-on' donning**
- **High tensile strength and elongation**
- **Strong puncture and tear resistance**

Particulate Surgical Respirator P2/N95 with head straps Level 3 - Softmed

Code SM-RA201/20 Box/20 $49.50

P2/N95 A-MED Particulate Surgical Respirator is a flat folded respirator with low profile design, which contours the face and accommodates facial movements without compromising the fit.
The upper panel with bendable nose clip helps reduce fogging of eyewear and the lower (chin) panel helps to achieve a comfortable fit.
An additional nose foam is attached inside the top panel for extra comfort of wearer.
Its features include a headband material which helps to even out strap pressure.

Reactive Barrier Technology explained:

Reactive Barrier Technology is a specialized micro emulsion which provides a sustained release system If you leave S-7XTRA to dry you enable the Reactive Barrier Technology providing added biosecurity and protection between cleans. Once applied the S-7XTRA provides a double protection against pathogens, as it kills pathogens once applied, and at the same time a reactive barrier is created on the surface. Any pathogens landing on the surface reactivates the S-7XTRA, and continues to be effective for up to 72 hours. This does not negate the need for daily cleaning.

Protective sheath for delicate scissors and sharp instruments prevents pouch strike through

Sterilisation Monitoring

Bowie Dick- Green Card T

Code PL254 15-Pkt $56.35

The Green Card T is specially designed for daily monitoring of pre-vacuum steam sterilisers operating at 134C to detect the presence of residual air. The special pouch packaging prevents the indicator card from being exposed to excessively wet steam conditions. Used daily in an empty steriliser prior to processing any loads.

- Meets EN867-1 Class B standards
- Meets ISO 11140-1 Class 2 standards
- Meets EN867-5 standards
- Lead free
- Easy interpretation
- Permanent colour change (no reversion of colour change unlike PH indicators)

Nordent – Hygiene

Scalers & Curettes - More to view online at: http://nordent.com/art/pdf/catalog/Hygiene.pdf

***Duralite handles pictured with all scalers** ***Standard handle also available**

Single End Sickle **Code RESCN5** **$69.30**

A moderate size, medium-reach sickle with a blade width of 0.9mm that tapers to a point.

Offset Sickle (H6/H7) **Code RESCN67** **$89.35**

Both sickles have an identical moderate size, medium-reach length and blade widths of 0.9mm that taper to a point. The tips have a 10° mirror image offset to allow better access to anteriors and premolars. This design is also known as H6/H7.

Anterior Lingual Hoe (Lingual Stain Remover) **Code RESCALSR** **$89.35**

Combines contra angle anterior hoe and contra angled spoon into one instrument that easily removes stain from anterior lingual surfaces.
The hoe has a 2mm blade width and makes it easy to 'push back' the sulcus as you scale along the gum line.
The spoon has a 2mm diameter that easily adapts to the concavities and grooves of the upper lingual anatomy.

Nordent Scalers continued –

Sickle/Hoe Combination

Anterior Sickle Spoon #1 **Code RESCN1 $89.35**

Combines a small size, medium reach length sickle that has a 0.8mm blade width that tapers to a point with a long reach contra angle spoon blade hoe that has a blade diameter of 2mm for anterior lingual surfaces.

Posterior Scalette N135 **Code RESCN135 $89.35**

Combines a long reach shank and a thin curette blade that is pointed like a scaler to provide easy adaptation to both supra and sub gingival areas and excellent interproximal access. The mirror image tips have a 0.8mm blade width set on 1mm terminal shanks with a 12mm reach.

Anterior/Posterior Sickle #129 **Code RESCN129 $89.35**

Mirror image blades on a medium reach terminal shank. The blades taper to a point from a 0.8mm width and have a reach of 10mm.

Columbia #2R-2L **Code RESCCO2R-2L $89.35**

The terminal shank is 1.2mm in diameter and 14mm long with an elliptical blade shape that is 1.2mm wide.

Columbia #4R-4L **Code RESCCO4R-4L $89.35**

The terminal shank is 1.1mm in diameter and 12mm long with an elliptical blade shape that is 1.2mm wide. *image shown with colour rings

Langer #3-4 **Code RESCLN3-4 $89.35**

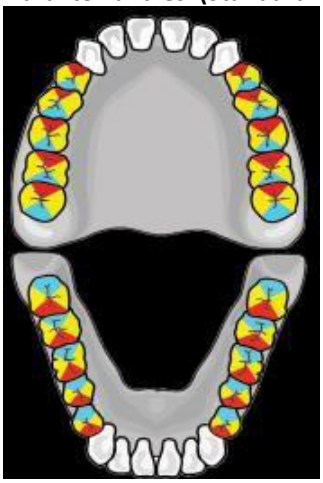
Has bends similar to the Gracey 13-14. The terminal shank is 1mm in diameter and 9mm long with a blade width of 0.9mm.

Langer #5-6 **Code RESCLN5-6 $89.35**

Has bends similar to the Gracey 7-8. The terminal shank is 1mm in diameter and 16mm long with a blade width of 0.9mm.

Gracey Curettes - all $89.35 each with standard terminal shank and blade.

Duralite handles. (Standard handles available)



Use this color-coded chart to select the correct Gracey patterns for your application.

Anteriors

White- *All Surfaces*

Gracey Patterns 1-2, 3-4 or 5-6

Premolars and Molars

Yellow- *Buccal & Lingual Surfaces Gracey Patterns 7-8 or 9-10*

Red-*Mesial Surfaces*

Blue-*Distal Surfaces*

Gracey Patterns 13-14 or 17-18

Standard Gracey Curettes continued –

Gracey #1-2 — Code RESCGR1-2

Short contra-angle for incisors and cuspids Terminal shank reach is 11mm

Gracey #3-4 — Code RESCGR3-4

Short contra-angle for incisors and cuspids. Terminal shank reach is 11mm

Gracey #5-6 — Code RESCGR5-6

Medium shank and slight contra-angle for bicuspids and molars. Terminal shank reach is 14mm

Gracey # 7-8 — Code RESCGR7-8

Medium contra-angle for facial and lingual surfaces of bicuspids and molars. Terminal shank reach is 12mm

Gracey #9-10 — Code RESCGR9-10

Long contra-angle for molars and less accessible root surfaces. Terminal shank reach 12mm.

Gracey #11-12 — Code RESCGR11-12

All mesial surfaces of bicuspids and molars. Terminal shank reach is 8mm.

Gracey #13-14 — Code RESCGR13-14

All distal surfaces of bicuspids and molars. Terminal shank reach is 9mm.

Gracey #11-14 — Code RESCGR11-14

Mesial Distal combination combines the mesial tip of the Gracey #11 and the distal #14 tip to allow completion of the facial or lingual sextant without changing instruments.

Gracey #12-13 — Code RESCGR12-13

Mesial Distal combination combines the mesial tip of the Gracey#12 and the distal Gracey#13 tip to allow completion of the facial or lingual sextant without changing instruments.

Gracey #15-16 — Code RESCGR15-16

Modified version of the Gracey #11-12 allows better access and a more comfortable hand and finger position for all mesial surfaces of bicuspids and molars. The terminal shank reach is 9mm.

Gracey #17-18 — Code RESCGR17-18

Modified version of the Gracey #13-14 allows better access and a more comfortable hand and finger position for all distal surfaces of bicuspids and molars. The terminal shank reach is 7mm.

***Long Reach, Mini Blade/Long Reach & Rigid Gracey's available**

InstRenew® Sharpening Assistant

Code SSM2V3 $1,386.00

InstRenew is the only instrument sharpening device developed by instrument makers to make it **EASY FOR ANYONE** to sharpen **ANY BRAND** and **ANY PATTERN** of Scalers and Curettes with professional results every time.

The patented design makes it possible to **achieve perfect factory blade angles** without the guesswork and frustration that are common with other sharpening methods.

If you have been looking for **a cost effective, fast and easy way to improve your in-house sharpening program** that will get everyone in your practice sharpening with the exact same angle every time, then InsRenew is the answer

See a complete video demonstration at: http://nordent.com/instrenew/index.html

3 Step Method It's Easy!

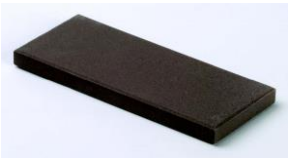
1- Position the blade

2- Tip clamp grasp

3- Sharpen the blade

Nordent Sharpening Stone

Code SS6 Sharpening Stone, Ceramic Medium Grit $63.20



Nordent – Diamond Furcation Files

Diamond Coated Furcation Files have a thin profile for easy sub gingival access.

The tips are made from a special spring tempered stainless steel that resists breakage.

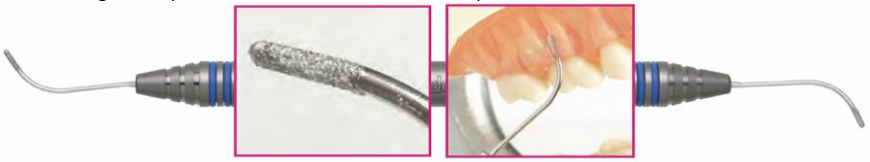
The blades have a fine diamond coating on the inside curvature that is used to remove calculus and a smooth un-coated back to protect soft tissue.

The cutting action of the diamond coating allows a multidirectional stroke pattern.

Diamond File #1

Code CEDF1 $172.50

Mirror image tips for facial and lingual adaptation. The blade has a round shape and is 1.0mm in diameter.



Diamond File #2

Code CEDF2 $172.50

The blades are set at opposing angles and have a round shape that is 1.0mm in diameter set on a 14mm terminal shank.
Excellent for mesial and distal adaptation.

Diamond File #3

Code CEDF3 $172.50

Designed to cover a wider area in tight mesial and distal areas.
The flattened "tear-drop" shaped blade is 2mm wide and 0.5mm thick. The terminal shanks allow a 14mm reach.

Nordent – Implant Scalers

ImplaMate Scalers

- With tips manufactured from solid titanium, ImplaMate scalers and Curettes will not scratch implant abutments and are a safe and effective way to maintain a valuable investment.
- ImplaMate offers a choice of 6 popular patterns hence there is no additional learning curve.
- ImplaMate scalers never need sharpening.
- ImplaMate tips have been coloured purple to distinguish them from your routine scalers and curettes.

Endodontic –

Explorers #DG16 — Code REEX16 $58.55

Both tips are 16mm in length and set at different angles of 45° and 70°.

Root Canal Plugger #5-7 — Code REEN5-7 $78.55

The working ends are 21mm long with a .02mm taper. #5 (D1= .58mm / D16=1.2mm) #7 (D1=.76mm / D16=1.2mm).

NiTi Spreader #D11T — Code REEND11T $ 67.75

The working end is 21mm long. D1=.25mm D16=.86mm

Nordent Restorative

Excavators – $75.45 each All with Duralite Handle

Spoon #1S — Code REEC1S

1.0mm diameter. This excavator is also known as #38-39.

Spoon #1 — Code REEC1

1.2mm diameter. This excavator is also known as the #17.

Spoon #2 — Code REEC2

1.6mm diameter. This excavator is also known as the #18.

Spoon #3 — Code REEC3

2.0mm diameter. This excavator is also known as the #19.

Spoon #4 — Code REEC4

2.4mm diameter. This excavator is also known as the #20.

Nordent – Restorative continued

Burnishers

$70.85 each With Duralite Handle

Ball #43

Code REBR43

1.9mm/1.6mm diameters.

Ball/Football

Code REBR27-29

1.6mm/3.6mm diameters

Condensers/Pluggers

$72.40 each

Available in plain or serrated tips. All with Duralite Handle.

#6-8

Code RECN6S8

Serrated Tips

Tip Diameters are 1.9 and 2.3mm

Mortenson

Code RECNMORT

The blades are extra long and tapered with non-serrated tips.

The tapered blades have the following diameters: 1.9-1.1mm and 2.3-1.6mm

Carver

With Duralite Handle.

Hollenback #3S

Code RECAH3S $72.40

The blades are 6.5mm long and 1.5mm wide. Also known as a half-hollenback. *image shown with standard handle

Placement – Stainless Steel Paddles

$77.00 each All with Duralite Handles

Double Paddle #1

Code REPFI1

Identical small blade paddles set at opposing angles that are 7mm long/2mm wide.

Curved Paddle 'LR'

Code REPFILR $84.40

Mirror image blades are 11mm long and 1.8mm wide

Nordent Composite Instruments

Duraflex composite instruments are crafted of exotic stainless steel spring wire.
This unique material provides superior strength and durability while allowing the tips to flex when placing and shaping composite material.
The tips **are coated with titanium nitride that prevents "pull back" when manipulating and placing composite.**
More available to view online at:
http://nordent.com/art/pdf/catalog/Restorative.pdf
All with Duralite Handle: $87.80 each

Composite Double Paddle #1T Med Double Paddle — Code REPFI1T

Identical small blade paddles set at opposing angles that are 7mm long / 2mm wide.

Composite Paddle/Condenser #2T — Code REPFI2T

Combines a wide flared blade paddle that is 9mm long/3.25mm wide with a 1.7mm diameter condenser that has a flat end

Composite Paddle/Condenser #3T — Code REPFI3T

Combines a small paddle that is 7mm long /2mm wide with a 1.1mm diameter condenser that has a flat end.

Composite Double Paddle #4T — Code REPFI4T

Identical flared blade paddles set at opposing angles that are 11mm long/2.0mm wide.

Composite Double Paddle #5T — Code REPFI5T

Identical wide, flared blade paddles set at opposing angles that are 9mm long/3.25mm wide.

Composite Double Paddle #8AT — Code REPFI8AT

Identical small blade paddles set at opposing angles that are6mm long / 1.5mm wide.

Composite Paddle /Condenser #20T — Code REPFI20T

Combines a long flared blade paddle that is 11mm long /2mm wide with a 2.0mm diameter condenser that has a rounded end.

Composite Micro-Curve Paddle #26T — Code REPFI26T

Mirror image blades are 6mm long and 1.5mm wide. Ideal for small pit & fissure or minor anterior

Nordent Composite Instruments

Composite Acorn #29T **Code REPFI29T**

Two Acorn shaped placement tips. One end has a 2.3mm diameter, the other has a 2.8mm diameter.

Composite Paddle/Condenser #30T **Code REPFI30T**

Two condenser tips 2.0mm and 1.4mm diameter

Composite Ball/Ball # 32T **Code REPFI32T**

Two ball shaped placement tips. One end is 1.25mm diameter and the other is 1.7mm diameter

Composite Double Paddle #39T **Code REPFI39T**

Identical medium size, elliptical cross section, parallel sided blade paddles set at opposing angles that are 9 mm long/ 2 mm wide.

Composite Double Paddle #50T **Code REPFI50T**

Double Paddle at 0/90 degrees. Blades are very thin and flexible for easy adaptation in tight interproximal areas & anterior veneers.

Composite Paddle/Acorn #53T **Code REPFI53T**

This paddle/anatomical burnisher combination is designed for class II posterior restorations that require a fine artistic touch. The 90` paddle is elliptical in shape, quite thin and only 7mm long and 1.8mm wide. It is combined with a medium size acorn burnisher.

Composite Double Paddle #GG1 **Code REPFIGG1**

This versatile instrument for: mesial marginal ridge, lingual contour, mandibular incisor, distal marginal ridge.

Nordent Composite Instruments

Composite Curved Paddle 'LRT' **Code REPFILRT $87.80**

Mirror image blades 11mm long/1.8mm wide. Ideal for class V.

Composite Ultra Fine Carver IPC **Code RECAIPCT $87.80**

The flat blades are 10 mm long and 1.5 mm wide and are sharp around the entire periphery. The blades are 0.4 mm thick to enhance interproximal access. *image shown with standard handle

Gingival Cord Packers- straight blade

Nordent #113 with Duralite Handle

Code REGPNP113 Plain Tip $73.85
Code REGPNS113 Serrated Tip $73.85

Mirror image blades that have a 45 degree offset

Nordent #122 with Duralite Handle

Code REGPNP122 Plain Tip $73.85
Code REGPNS122 Serrated Tip $73.85

Blades set at opposing angles

Nordent Crown Remover

Crown Remover Code CRN134 $113.95

The most popular Crown Remover gives you easier access, less preparation and more patient comfort.
Mirror image blades are off-set 45° and can engage prepared slots on any surface of the crown.
The blades will fit slots as narrow as 1mm and are made from a special high tensile stainless steel alloy so they won't bend.
The exclusive **DuraLite® HEXagonal handle** provides superior leverage and control.

Periodontal Chisels

Fedi #1 with Duralite Handle **Code CECPFEDI1 $140.15**

Double ended opposing blades that are 1.75mm wide with semi-circular cutting edges on each side and set at a 10 degree angle.

Ochsenbein #1-2 with Duralite Handle **Code CECPOCH1-2 $140.15**

A double-ended version. Both blades are 5mm wide.

Nordent Surgical Instruments

Periosteal Elevators

Buser with Duralite Handle **Code CEEPBUSER $143.25**

Combines an offset teardrop blade and a straight spear-shaped blade. Both are 4mm wide and have a sharp periphery.

Molt #9 with Duralite Handle **Code CEEPM09 $143.25**

Combines a large curved blade that is 7.5mm wide and has a rounded tip with a curved blade that is 3.5mm wide and has a pointed tip. Both ends are non cutting.

Prichard #3 with Duralite Handle **Code CEEPPR3 $143.25**

Combines a large, flat blade used for retraction and a smaller, curved tip used for reflection and retraction of tissue.

Seldin #23 **Code EPS23 $132.90**

Flat Handle with two wide tips

Periodontal Hoe

Ochsenbein #4 with Duralite Handle **Code CECPOCH4 $140.15**

Mirror image tips with blades that are 3.5mm wide. The blade angles allow excellent access to distal surfaces.

Periotomes

Periotome #1 with Duralite Handle **Code REEPTOME1 $190.95**

Anterior with a straight blade and socket expander

Periotome #2 with Duralite Handle **Code REEPTOME2 $190.95**

Contra – angle for posteriors

Retractor

University of Minnesota **Code RCM $81.60**

Nordent Surgical Instruments

Scalpel Blade Handle

Code HB5 **$141.70**

Perfectly balanced round handle allows easy rotation in difficult to reach areas (155mm)

Surgical Curettes

Lucas #84 with Duralite Handle

Code CECSL84 **$138.60**

Double ended Lucas bone curettes have mirror image ends. The terminal shank is angled at 50 degrees and has a 20mm reach. The spoon shaped blades have an elongated radius.

Miller #11 with Duralite Handle

Code CECSM11 **$138.60**

Spoons are 3.5mm wide

Elevators

Apexo #301

Code E301T **$178.65**

Straight Blade with a 2.5mm blade width.
Titanium coated

Seldin #34S

Code E34ST **$178.65**

Gouge with a 3.7mm blade width. Has a gentle back curve to improve adaptation.
Titanium coated

Coupland #1

Code ECO1 **$178.65**

Gouge with a 3.0mm blade width and a square tip. The 10° back curve improves adaptation

Coupland #2

Code ECO2 **$178.65**

Gouge with a 3.5mm blade width and a square tip. The 10° back curve improves adaptation

Coupland #3

Code ECO3 **$178.65**

Gouge with a 4.0mm blade width and a square tip. The 10° back curve improves adaptation

Pumice

Ainsworth Pumice Fine Grit 500g
Code 999317 $17.40
Ainsworth Fine Pumice is a superior quality fine grit abrasive agent used in many polishing procedures. It is usually mixed with water to form a thick paste and is used in conjunction with a buff or brush wheel on the lathe.

Instrument Cleaning

Cleaning Bottle Brush – Mirasuc®
Code HW605216 Pkt/6 $27.20
Cleaning brush for aspiration canulas
Bendable, ideal for cleaning inside the canula
For all aspiration canulas with ø 11 mm and 16 mm

Ultrasonic & Instrument Cleaning

Miltex Ez-Zyme Multi-Enzyme Cleaning Solution - 32 Sachets **Code 46110 $164.35**

Contents of 1-box makes **121 Litres of solution**.
Neutral pH
Multi-enzyme liquid **concentrate** ideal for

- **instrument presoak,**
- **ultrasonic cleaning,**
- **laundry presoak,**
- **evacuation system cleaner.**

Ideal for cleaning hard to remove proteinaceous (mucous & tissue) and lipid (fatty) materials from the surfaces of surgical/dental instruments, linen, water submersible equipment

Ultrasonic & Instrument Cleaning

VibraKleen Ultrasonic Clean
Code 37101 $150.65
Box/80 Tabs - 1 tablet per 2 Litres

- **Effervescent, enzymatic cleaning tablets**
- **Non-corrosive and low-foaming**
- **Biodegradable, non-toxic & pH neutral**
- **No chlorine or harsh alkaline**
- **Drop directly into ultrasonic cleaner**
- **Compact, convenient package of 80 tablets**
- **Clean mint scent**
- **Also effective as evacuation cleaner**
- **Power of protease enzymes**

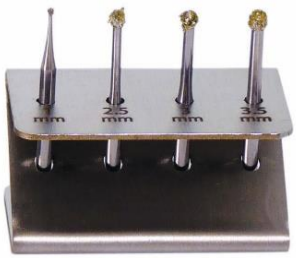
ethOss®
TRUE BONE REGENERATION

- A synthetic bi-phasic matrix for true bone regeneration
- Non Bovine – no human or animal components. Ethical/cultural patient choice
- Shows 50% new host bone in just 12 weeks
- The Calcium Sulphate formulation acts as a built-in barrier against soft tissue ingress, removing the need for collegen membrane
- EthOss is completely absorbed and replaced by new host bone over the course of treatment
- Delivered sterile, available in 2 syringe size choices (0.5cc and 1cc)
- Easy to dispense syringe delivery system, the material will start to harden after 1 minute
- Does not suffer wash-out in bloody sites
- Suitable for use in GBR, Periodontitis, Buccal defects, Sinus Grafts and Extraction socket filling

Code 270000	3 x syringes 0.5cc	$697.40
Code 270001	3 x syringes 1.0cc	$825.10

ETHOSS ®
DEGRANULATION BUR KIT

Code 270006 $652.25 1 x Kit



Key Features & Benefits:

- Designed morphologically to remove soft tissues without harming the bone
- Quick and effective debridement
- Precision manufacture – diamond edges do not grab the bone compared to traditional tungsten burs
- Excellent for preparing a defect for bone grafting with ethoss®

Advantages

- Optimal debridement of the inflammatory tissue – cannot be achieved manually
- Multi task drills can be used in implantology, periodontal surgery, endodontic surgery, and root removal
- Maximum safety when working near anatomical structure
- Reusable (more than 100 procedures). Must be cleaned as per manufacturer's instructions

Code	1 mm	2.5 mm	3.0 mm	3.5 mm
Head size	1 mm	2.5 mm	3.0 mm	3.5 mm
Total length	31 mm	31 mm	31 mm	31 mm

*latch attachment with RPM recommended is 800 – 1200.

Gylcolon – Resorba

Glycolon

- Monofilament –no capillary, no sawing action
- Absorbs and ties like catgut
- Fast absorption 7-9 days half knot strength

Blu Tab Waterline Maintenance Tablets

Code 221001	**To treat 700-750ml water**	**$79.85 /50 tabs**
Code 221002	**To treat 2 litres of water**	**$113.35/50 tabs**

Quick & Easy

Simply drop an effervescing tablet in your independent water bottle each time you refill it. It is that simple! BluTab does the work for you. Effective waterline maintenance takes only seconds per day.

Economical and Convenient

Premix and refill water bottles between patients to avoid interruption. BluTab eliminates the labour and cost associated with weekly "shock" treatments. BluTab remains effective for up to 28 days. No waste, simply use it until it's gone.

Safe for Patients and Staff

BluTab is specifically formulated to be continuously present in your waterlines. Each tablet contains super low concentrations of non-toxic ingredients, so it is safe for your patients, your team and your equipment. BluTab is also odourless and tasteless.

Bonding

BluTab has no effect on bonding system strengths. *Testing has shown that there is no statistical difference between bond strengths of enamel or dentin samples whether using distilled water or BluTab solution. (*University of Detroit Mercy School of Dentistry, Waterline Treatment Affect on Enamel and Dentin Bonding to Composite, October 2005)

***Recommended to shock water lines before commencing use of BluTab.**

Waxes

Investo Bite & Boxing Wax-500g

Code INW131 $40.85

Investo Bite & Boxing wax is a softer wax used for bite registration which offers excellent stability. A soft wax which is red in colour. The sheet size is 160mm x 80mm, and thickness 1.5mm

Ainsworth Eziset Bite Sticks, medium

Code AIW058 48 sticks $41.45

Preformed bite rims for setting teeth into. Medium hardness and pink in colour. Stick size 125mm x 10mm thickness 10mm

Investo Pink Modelling Wax – 500g

Code INW100 $27.70

Investo Modelling Wax is Australia's most popular modelling wax - and with good reason! This general all purpose wax is carefully produced using the old- fashioned wax rolling method - the only way to produce the unique properties that discerning technicians demand. It is ideal for set-ups, bite rims and try ins. It is a medium hardness wax and pink in colour. The sheet size 160mm x 80mm and a thickness of 1.5mm.

Periphery Wax Soft 100g - Ainsworth

Code AIW075 $54.45

Light blue wax sticks used to expand the periphery of the impression tray. Soft and easily molded. Also available in Hard sticks (dark blue). Stick size 15omm

Sticky Wax Sticks - Ainsworth

Code AIW060 55g $26.75

Code AIW059 454g $107.95

Ideal wax for denture repairs - acts like glue, holding the denture in place for repair. Sets to a brittle consistency when dry. Medium hardness and yellow in colour Stick size 100 x 10 thickness 10mm
