

ANTIBACTERIAL HAND WIPES

Clinell Antibacterial Hand Wipes kill 99.999% of bacteria, they reduce the risk of infection and help maintain healthy skin.

Ideal for improving patient hand cleanliness. With a patented, dermatologically-tested formula, our Antibacterial Hand Wipes are suitable for frequent use. They are individually wrapped and ideal for patient food trays.

Clinell Antibacterial Hand Wipes
(Pack of 100 - CAHW100AUS)

How to clean and disinfect hands

Please follow the steps below for at least one minute:

Rub hands palm to palm.

Rub back of each hand with the palm of the other hand with the fingers interlaced.

Rub palm to palm with fingers interlaced.

Rub with back of fingers to opposing palms with fingers interlaced.

Rub each thumb clasped in opposite hand using rotational movement.

Rub tips of fingers in opposite palm in circular motion.

Rub each wrist with opposite hand.

Discard the wipe in the appropriate waste bin.
