

Preventing infection transmission shouldn't mean dry skin.

Control infectious disease whilst preventing skin moisture loss.

- ✓ Leaves hands hygienic, soft and replenished
- ✓ Contains natural emollients
- ✓ Maintains skin integrity

Trial Bactol® Blue today.

Sanitising your hands to prevent infection spread is crucial, but it doesn't need to mean that you get dry, irritated skin.

Bactol® Blue was developed to leave your hands feeling soft as you sanitise. It was developed in compliance with EN1500 testing standard for alcohol based hand rubs. It is formulated with an alcohol concentration of 70% Ethanol v/v, as recommended by WHO for maximum efficacy.*

Whiteley has designed a universal bracket for the Bactol® Blue 500mL pump bottle to be wall or bed mounted at the point of care.
